

Why Chola MS Risk

An integrated approach for solving ZLD issues.

Multi-disciplinary experts with experience in wide array of treatment technologies.

Vast knowledge in ETP and ZLD design and operational aspects for a wider wastewater characteristics.

Adopts ETP and ZLD performance simulation tools for solving complex design and operational issues.

Benefits

Demystifying design gaps,

Quick response to your operational and troubleshooting queries,

Assisting in improving system performance,

Predictive analysis of the operational data for diagnosing hidden operational risks

Solving your ETP and ZLD Design and operational challenges remotely and economically

Our multidisciplinary environmental, chemical, biotechnology experts will help you in addressing the following ETP and ZLD design and operational challenges remotely. All subscribed users will get direct access to our ETP/ZLD experts in solving operational and design challenges.

ETP and ZLD Performance Assessment	ETP and ZLD Design gap analysis review	ETP and ZLD Remote O&M support
<ul style="list-style-type: none"> Diagnostic analysis of wastewater treatment unit operations Developing SOPs for efficient operations of ETP/ZLD systems Online support for commissioning and stabilizing the ETP/ZLD units. 	<ul style="list-style-type: none"> Modelling and simulation of existing ETP/ZLD and evaluating the carrying capacity Basic engineering of upgrading existing ETP/ZLD systems Technical feasibility studies and developing BOQ for ETP/ZLD expansion programs 	<ul style="list-style-type: none"> ETP and ZLD Operational data analysis and suggesting predictive maintenance, Preparing ETP/ZLD performance dash boards and management appraisals
